

GEOWALL COMPETITION

1. OVERVIEW

The objective of the GeoWall competition is to design and build a model wrapped faced mechanically stabilized earth (MSE) retaining wall to support retained soil and surcharge loads.

2. ELIGIBILITY

Per national guidelines, teams may consist of four (4) members.

3. SUBMITTALS

Please review the national rules for GeoWall requirements. Deliverables should conform to the [national rules](#). Teams should bring all necessary tools to the competition. Regional technical papers should be submitted by **February 22, 2020**. The submittal procedure will be released in Mailer 2.

5. JUDGING

The competition will be conducted and scored according to the [national rules](#).

Teams are encouraged to submit technical papers to Geo-Institute for the national competition. However, the national competition will take place before the regional competition. Teams that are selected as finalists for the national competition will automatically receive the 120% of the maximum technical paper score (60 out of 50 points).

6. QUESTIONS

Direct any questions to [conference organizers](#). Answers will be posted on the Q&A page.
