

SUSTAINABLE SOLUTIONS COMPETITION

OVERVIEW

Sustainable Solutions will challenge students to apply the principles of sustainable development during the design-build process. Teams will develop a paper addressing the project's technical aspects, present their work to judges, and construct a prototype bus stop structure as well as design the surrounding site.

ELIGIBILITY

Per national guidelines, only four (4) members can participate in the build. However, no restriction is placed on the number of members allowed to participate in the design process.

SUBMITTALS

Technical papers will must be submitted by **February 22, 2020**. Electronic presentations should be brought on a USB drive to be uploaded at the time of the presentation portion of the competition.

PROCEDURES

Please review the [national rules](#) for Sustainable Solutions specifications and requirements. Deliverables should conform to the [national rules](#).

QUESTIONS

Direct any questions to [conference organizers](#). Answers will be posted on the Q&A page.
